

EU-Konformitätserklärung

im Sinne der Richtlinie 2014/34/EU (ATEX-Richtlinie)

Hersteller: Rotech Antriebselemente GmbH

Bezeichnung des Betriebsmittels: Sensorboxen Typ TCR, PB, ET, ALB, COM, FMV und D-Box

Erklärung: Die Sensorboxen Typ TCR, PB, ET, ALB, COM, FMV und D-Box sind als Verteilerkästen zu betrachten und haben eine Schutzart von min. IP65. Die Sensorboxen übernehmen die Zündschutzart des jeweiligen Sensors, da die Box keine eigenständige Zündquelle darstellt. Die verwendeten Sensoren sind zertifiziert für: **II 2 G Ex ia IIC T6 Gb**. Die Sensorboxen sind nur zum Anschluss an einen eigensicheren bescheinigten Stromkreis zugelassen.

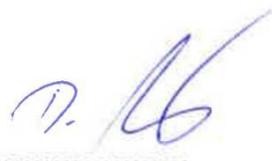

Normen: Zur Beurteilung der Sensorboxen wurden folgende Normen herangezogen:
EN 60079-0: 2018 Explosionsgefährdete Bereiche – Teil 0:
Betriebsmittel - Allgemeine Anforderungen
EN 60079-11: 2012 Explosionsgefährdete Bereiche – Teil 11:
Geräteschutz durch Eigensicherheit „i“

Kennzeichnung: 

Hinweise: Der Zusammenhang zwischen der maximal zulässigen Umgebungstemperatur, der Temperaturklasse und den Anschlusswerten des eigensicheren Stromkreises ist der EG-Baumusterprüfbescheinigung der Sensoren zu entnehmen. Jedoch darf die maximal zulässige Umgebungstemperatur +85°C nicht überschreiten. An die Geräte dürfen nur bescheinigte, eigensichere Magnetventile angeschlossen werden. Die Höchstwerte des angeschlossenen Ventils sind zu beachten.

EU Declaration of conformity

in accordance with the Directive 2014/34/EU (Directive-ATEX)

Manufacturer: Rotech Antriebselemente GmbH

Description of the equipment: sensor boxes type TCR, PB, ET, ALB, COM, FMV and D-Box

Declaration: The sensor boxes type TCR, PB, ET, ALB, COM, FMV and D-Box are to be considered as signal devices and their enclosure classification is min. IP 65. The sensor boxes adopt the ignition protection method of the respective sensor as the box does not represent an independent ignition source. The sensors used are certified for: **II 2 G Ex ia IIC T6 Gb**. The sensor boxes are licensed for connection with intrinsically safe, certified circuits only.

Standards: For the evaluation of the sensor boxes there have been used following standards:

EN 60079-0: 2018 Explosive atmospheres - Part 0:
Equipment - General requirements
EN 60079-11: 2012 Explosive atmospheres – Part 11:
Equipment protection intrinsic safe “i”

Identification marking: 

Remarks: The context between the max. allowable ambient temperature, the temperature class and the electrical supply data of the intrinsically safe circuit is adopted from the EU-type examination certificate of the sensors. However the maximum allowable ambient temperature must not exceed 85°C. Only certified, intrinsically safe solenoid valves may be wired to the device. The maximum electrical values of the solenoid valve must be respected.
